

USER GUIDE FREE WIFI ON DESKTOP

Quick and easy, just follow the steps below.

ONLINE GUIDE

assistance.2isr.fr

1 On your computer, select the establishment's WiFi network. The network is seen as « unsecure » in your list simply because it doesn't have a password.

2 Launch your Internet browser (eg: Edge, Mozilla Firefox, Safari, Chrome). You will be automatically redirected to the authentication portal. If this is not the case, enter the following address directly in the URL bar of your browser: <http://portail>

3 Then provide the information requested from you on the portal, then click on the “connect” button.

You are now allowed to browse the Internet via the property's WiFi service.

For more information,
don't hesitate to ask
the manager of the
establishment for advice.

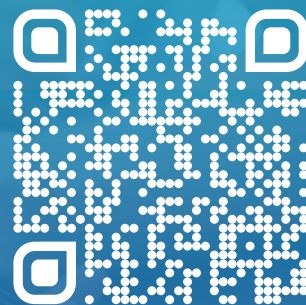

Surf safely!

USER GUIDE FREE WIFI ON MOBILE

Quick and easy, just follow the steps below.

ONLINE GUIDE

assistance.2isr.fr

1 On your mobile phone, go to **Settings > Wi-Fi** on iPhone or **Settings > Connections** on Android, then activate the Wi-Fi option. Your device automatically searches for available WiFi networks.

2 Select the name of the WiFi network you want to connect to. Automatically a page is displayed with a connection portal.

3 Then provide the information requested from you on the portal, then click on the “connect” button.

You are now allowed to browse the Internet via the property's WiFi service.

For more information,
don't hesitate to ask
the manager of the
establishment for advice.
